Soft Skills	Communication, Problem-solving
Familiar with	CI/CD (Jenkins, ArgoCD), Linux Administration, Version Control (Git), Xcode, fastlane, Android Studio

EXPERIENCE

Flutter Developer	May 2022 - June 2022
Freelancing, Gurugram, Haryana	
- Developed the authorization part of a Chinese POD using Single Sign-On (SSO) methods.	
Closed Source Contributor	Sept 2022 - Oct 2022
Gurugram, Haryana	
- Translated the Dairium app into various regional languages.	

PROJECTS

- **Github Fetcher App**
Utilized network calls to fetch user details via the GitHub API. The app enables users to explore GitHub profiles, repositories, and contributions, showcasing my iOS development skills.
- **Movie Tracker App**
Created a movie tracker app using SwiftUI, IMDb API, and CoreData for the Swift Student Challenge 2024. The app allows users to search, track favorites, and receive personalized recommendations with a sleek UI and offline support.
- **Jinja Ninja**
Developed a 2D adventure game inspired by the Chrome Browser Dino Game, featuring a dynamic Ninja. Players dodge obstacles in this thrilling, endless runner game.
- **Full-Stack KrypticGram**
Currently working on an Instagram clone using Swift and Firebase for backend operations, and SwiftUI for app development. The project aims to replicate Instagram's functionality and design comprehensively.

EXTRA-CURRICULAR ACTIVITIES

- Actively write blog posts (www.akhilraghav.com) and social media content ([Instagram](#)), with a viewership of over 1k users.
- Certified with Meta iOS Developer Certification
- TechLead at Google Developer Group (GDG) - Gurugram University, organizing workshops, tech talks, and community events to foster developer growth.
